INTRODUCTION

An instructor not solely illuminates the life of his students with his profound expertise but also, most importantly, helps him in reworking himself into a good human being, the ultimate goal of education. The trainer has a necessary position in the scheme of essential reforms in the training system. The NEP has to assist re-establish teachers, at all levels, as the most respected and fundamental individuals of our society, because they actually structure our subsequent era of citizens.

Among the reforms in the training system, the teacher needs to be placed at the center. The teacher shapes the persona of the college students who will decide the future of the nation. Hence, the teacher should be given his due admiration and honor with the aid of the individuals of the society. In India, Teacher's Day is celebrated on the fifth of Sept. and Guru Purnima is generally celebrated in the month of July." Teacher's Day and "Guru Purnima" are the days devoted to the trainer for their dedication and difficult work they spent in shaping the lives of their students. Teacher's day is celebrated to mark the birth anniversary of Sri Sarvepalli Radha Krishnan who was the First Vice-President of India and an exceptional teacher.

CHANGE IN STUDYING STYLE

Every teacher has a unique style of teaching from time to time to help the college students develop in the classroom. Various teaching styles enhance the trouble solving, imperative thinking, collaborative, learning with the aid of doing and cognitive competencies of the students.

DUTIES AND RESPONSIBILITY OF A TEACHER

Mentor-teachers vicinity the role of a mentor for newcomers especially at some stage in formative years at school.

Motivate-Teachers have a function to play when it comes to self motivating their students.

A ROLE MODEL

Teachers are looked up to as position fashions through students. As students see instructors as having a kind, friendly nature, dynamic persona and an amazing listener, they discover it is effortless to mannequin behavior based on the teachers they admire.

EXECUTIVE NEW EDUCATING METHODS

Teachers can minimize the pressure of rote mastering with the aid of promoting new teaching techniques like Project method, Play way method, experiential learning, learning with the aid of life capabilities and using ICT primarily based educating methods. So, students can get quantitative training not solely education. Quantitative education can make the environment friendly and skillful.

ROLE OF TEACHER IN MAKING A GLOBAL CITIZENS

The instructors develop students into cosmopolitan citizens who contributed in making this planet a lovely area to live in. It is a trainer who inculcates in his students the fee of a world residents in letter and spirit. Destiny of a country relies upon upon its residents and it is the trainer who prepares them to

shoulder the responsibility of taking their nation forward.

ROLE OF A TEACHER IN SOCIAL CHANGE

The position of a teacher as an agent of social alternatives has been viewed as necessary since time immemorial and will proceed to be so in future as well. New developments in science and technology, psychology, politics and human nature have a huge effect on our attitudes, customs, beliefs, rituals and values. The teacher acts as a catalyst between the two.

TO MAKE A COMPLETE MAN

The instructors now not only impart educational know-how to become self-reliant, motivated and possessing excessive self-esteem, but additionally instills in them moral values enabling him to be changed into a responsible resident of a nation.

PLANNER

A teacher plays the role of a planner on a day by day basis. From planning training and courses, and cross-curricular coordination, to assisting students schedule their daily student lives, a teacher usually strives to be organized.

TEACHER AS A LEARNER

Teacher is also a learner. He additionally continues on studying some thing or the other at some point of his life. According to the activity of the children, he adjusts his educating strategy, educating style and educating method. Keeps updating itself typically along with current changes. Covid-19 is a living instance of this due to the fact in this situation instructors who did not now have technical knowledge, realized technical science was a new teaching style at the time of covid-19, so we can say that teacher is also a learner.

CONCLUSION

Generations of college students will be assisted to improve their country and the whole world due to the fact of teachers. By having accurate teachers that will create educated generations. Teachers who create educated generations can create future teachers. This is the cycle that repeats itself. Everyone can be a teacher, but a true instructor ought to have some precise characteristics in order for the student to be successful. Teachers ought to be respectful to the students to make them feel safe and for the scholar to analyze to recognize them.
