

Impact of Psychoneurobics Charging on Homeopathy Medicines for Nephrology Patients

Munish Sabharwal^{1*} Dr. B. K. Chandra Shekhar²

¹ Research Scholar, Yoga Samskruthy University, Florida, USA

Abstract – Psychoneurobics uses visualisation of colours and prayers to the divine source of light, the creator of the entire universe for help and healing. It believes that prayer to the almighty can help to direct the light energy into mediums which in turn can help in charging them to result in beneficial results. In the past 15 years Dr. Chandrashekhar Tewari has through various scientific instruments proved the charging of water and food which have in-turn helped in various healings both physiological and otherwise.

The same principals of charging water and food has been applied on charging (in the form of praying and seeking the almighty's blessings and empowerment) Homeopathy medicines while being dispensed for cases of Nephrology cases being handled at Earth Saviour Foundation, with affect which have been found to be having statistical significance.

Keywords – Psychoneurobic, Homeopathy, Nephrology, Naturopathy

-----X-----

INTRODUCTION

The science of Psychoneurobics draws healing for beings and environments with the belief that there is a Spiritual Incorporeal Almighty who lovingly steps in to help and heal both on an automatic basis when we sleep and also which when approached upon specifically. Psychoneurobics believes that there is better communication through visualisation and images in the spiritual healing space as the same is beyond words. A medical team lead by Dr S.K. Chopra (Homeopathy Medico with age 83 years) visits the Earth Saviour Foundation on a weekly basis for treating destitute, homeless and senior citizens who have been discarded by society. The team treats using the principles of seeking Almighty's blessings to heal. It firmly believes that it is Almighty who heals and not the doctor. The team believes that the same medicine will work wonders if the prayers or so say the principals of Psychoneurobics when applied to charge the medicine using almighty's blessings have an impact which cures the patient faster.

Since the cases which have been administered are nephrology cases, apart from seeking almighty's grace, Orange light is visualised to be poured into the medicine to improve its effect.

PURPOSE

To study the impact of treatment of Nephrology patients using homeopathy and Psychoneurobics in

an integrated manner with guidance of Naturopathy where possible.

MAIN HOMEOPATHY MEDICINE USED & DESCRIPTION:

Composition of K4 (Kidney 4). The four medicines listed below are taken in equal quantity are put in pills and the same is administered to patients once a day 5-7 pills in the morning empty stomach. A minimum gap of 45 minutes is kept after taking the medicine, while the medicine is taken empty stomach. The patients are advised to take atleast 12 glasses of water daily to help in rejuvenating the kidneys and detoxifying the body.

The four medicines used in K4 are :

Zingiber 30

Some of the renal/urinary symptoms for use of Zingiber mother tincture are complete cessation of function of kidneys, frequent desire to urinate, stinging, burning in orifice. Possible yellow discharge from urethra, urine thick, turbid, of strong odor, suppressed. After urinating, continues to ooze in drops.

Berberis Vulgaris 6

Pain in region of kidneys is most marked; hence its use in renal and vesical troubles. It causes inflammation of kidneys with haematuria. Pains

may be felt all over body, emanating from small of back. Burning pains. Sensation as if some urine remained after urinating. Urine with thick mucus and bright-red, mealy sediment. Bubbling, sore sensation in kidneys. Pain in bladder region. Pain in the thighs and loins on urinating. Frequent urination; urethra burns when not urinating.

Apis Mellifica 30

Thirstless. inflammation of kidneys. Burning and soreness when urinating. Suppressed, loaded with casts; frequent and involuntary; stinging pain and strangury; scanty, high coloured.

Terebinthinae 200

Has a selective affinity for bleeding mucous surfaces. Tympanites and urinary symptoms very marked. Inflammation of kidneys, with haemorrhages-dark, passive, fetid. Bright's disease preceded by dropsy. Urinary -Strangury, with bloody urine. Scanty, suppressed, odor of violets. Urethritis, with painful erections (Canthar). Inflamed kidneys following any acute disease.

Apart from the above which constitutes Kid 4, Causticum and has been used.

Causticum is useful in when frequent urination in drops happens. Excruciating pain which radiates from kidney to testicles happens. Passing of the urine happens while sneezing at night, laughing, blowing the nose, coughing . Its involuntary passing of urine not even feeling that the urine is passing.

Psychoneurobic application :

The second chakra from bottom(lower abdomen), or the orange chakra is where the purification process of the body is conducted through. The purification of the blood happens through the renal organs which are located in the vicinity of the Sacral chakra. Not only the kidney is located, the blood is purified, the urine is also created here. The gynaecology organs are also in this areas. The immunology of the body are greatly influenced by this chakra. In turn the purity of the blood directly impacts the glow of the skin.

The chakra gets activated when we have emotions of positive thoughts and purity in our mind. Hence the patients are told to have positive and pure thoughts apart from absorbing orange light. While the deactivation happens when the patient gets into possessive thoughts and has negative thoughts and attachments.

The problems out of such negative thoughts /blockages results in kidney ailments, bladder problems occur.

The normal process is that we see the blessings of almighty God flowing to us in the form of orange colour light from top of the head, flowing down the spine to the Spleen chakra of the Swadisthan chakra below the navel. The watery element of the body is purified at the locus of this point as the filtration plant of the body rests here. This chakra spins faster than the root chakra(red) and hence it looks orange. A clean orange chakra which is activated is the essence.

In the case where we have worked on patients, the thought of positivity and purity itself works to activate the chakra. The patient is reinforced with these thoughts and is told to visualize the orange colour on the medicine before taking it . Also the homeopathic medicine dose when given in the clinic is charged through orange light vibrations by the dispenser. So even if the patient does not do it, the dispenser does it.

Naturopathy Application :

Consumption of water approx. 2.5 to 3 litres is a part of naturopathy which is advised to the patient. Consuming less of it has a direct bearing on the health of the kidneys of the patient and has a direct correlation with the effectivity of the treatment given. This quantity is advised to a patient who has a weight of approx. 65 kgs, and can be increased or reduced with the weight.

Patient	BP - S		BP -D		Pulse		Emotional		Physical		Sleep	
	Pre Treat	Post Treat	Pre Treat	Post Treat	Pre Treat	Post Treat	Pre Treat	Post Treat	Pre Treat	Post Treat	Pre Treat	Post Treat
Ram Singh	150	135	100	90	100	90	4	6	4	6	6	6
Neelam	145	120	100	85	75	70	3	4	3	4	5	7
Parvati	150	125	100	80	95	85	3	3	2	2	3	4
Usha	120	120	80	80	75	75	3	6	4	6	3	6
Sunder lal	130	120	90	80	100	100	3	3	4	4	5	5
Gupta	130	120	95	80	78	85	4	7	4	6	4	6
Monica Das	120	120	90	80	85	75	4	6	3	7	6	6
Average	135.0	122.9	93.6	82.1	86.9	82.9	3.4	5.0	3.4	5.0	4.6	5.7
% Improvement		9%		12%		5%		46%		46%		25%

	Bad	Average	Good
Emotional	1 to 3	4 to 6	7 to 9
Physical	1 to 3	4 to 6	7 to 9
Sleep	1 to 3	4 to 6	7 to 9

Numeric Parameters -The Blood pressure Parameters, Pulse rate were taken over a period of time from the time when the treatment was started till the last recording.

Blood Pressure (BP) - The Blood pressure/Systolic(BP-S) and Diastolic (BP-D)for the sample under study showed an improvement of 9% for Systolic and 12% for Diastolic. This is after not taking any allopathic drugs. This was a sizeable

improvement for the sample and would help the longevity of the patient.

Pulse Rate-The pulse reading was affected positively for the overall sample by 5%. This was not a big improvement but the reading when seen with the other parameters is significant and positive.

Subjective parameters-While Blood pressure and pulse rate are accurate indicators, the other parameters like Emotional well being, Physical disposition (visual) and sleep assessment are subjective. There is a direct correlation which has been found of these subjective parameters and the numeric parameters. The Emotional, Physical and Sleep parameters were also noted to see the overall well being and the comfort of the patient.

Emotional Parameters:

Emotion is often intertwined with mood, temperament, personality, disposition, and motivation. The overall disposition of a patient is judged by the state of his /her emotions also. A positive disposition, or a negative disposition or emotion is directly linked to a bad or good health. The chakra of the bodies are blocked if the emotions are negative while they are open if the same are positive. The treatment sometimes makes the emotional disposition move up to better while sometime the natural positive disposition is something which helps the treatment. Sometimes because of the positive emotions the healing also becomes faster.

In this sample study there was a quantum jump of 46% in the emotional well being of the patients which is a great improvement and has a direct impact on the motivation and happiness quotient of the patient.

Physical Parameters :

For a renal patient, physical assessment includes feeling the backside of the lower abdomen to feel if there is any pain in the region of the kidneys. Also it involves seeing if there is any water retention by way of fluffiness on the lower limbs and if there are swelling on the face or below the eyes. These indicate possibility of renal problems.

The assessment of the sample size showed a marked positive improvement of 46% from 3.5 to 5. This indicates, that there is an overall improvement in the physical symptoms viz lowering the in pain the lower back part of abdomen, fall in water retention etc.

Sleep :

The sleep which the patient observed, is a self assessment. The quality of the sleep is a very important attribute to the seed of healing of the

patient and good health also contributes to the same. Checking the patient for the length of sleep as well as the quality was something which was found to be very important. Of the above sample the more points are given for good sleep and less points are given for poor sleep. Prior to the treatment while the average points scored was 4.6 while during the course of the treatment, when last recorded the point score of sleep had increased to 5.7. This is a significant improvement of 25%. By the principal of Psyconeurobics, a good sleep helps to get more divine healing energy and hence helps to get better health for the patient.

Further more the use of Homeopathy medicines duly charged through Psyconeurobics with help of Orange light made the patient feel better.

Summary of Neuro cases where Integration of Homeopathy & Psyconeurobics was used

Name	No.	Age	Sex	Since	Diagnosis	Treatment
Ram Singh	518	70	M	22-01-2018	left kidney pain	KID 4

GUPTA	NA	54	M	NA	PROSTRATE	THUJA 200 CELA 30
MONICA DAS	NA	40	F	NA	RIGHT HEEL PAIN KIDNEY PAIN	LYCO 200 KID 4

METHODOLOGY

After due systematic diagnosis of the ailment and coming to the cause of the problem, Incorporeal God Father is invoked and comfort is given to the patient that Almighty will shower his blessings and all rests in his hands, if the patient takes the medicine remembering HIM, then the medicine is given by the Pysco Neurobics principles of charging with Orange light mentally. If the patient is cooperative enough than the patient is also advised to visualize orange light into the medicine before taking it in the morning. Further more naturopathy principles of taking 12 glasses of water is a must towards taking the treatment.

DISCUSSION

Homeopathy has excellent remedies for nephrological disorders. This is because homeopathic treatment is cantered on a person and his or her pathological condition. Moreover, homeopathic medicines are prescribed after taking

into account the patient's constitutional type like the physical, emotional, and psychological makeup and his or her medical history. An experienced homeopath determines all the factors, including miasmatic tendency of the patient before deciding any treatment.

Human body has an excretion system, which is composed of a network which takes the toxins from the cell level to the final excretion either way of sweat, urine, stool, or breath. So any problem connected to the human system demands a thorough examination to ascertain the diseases and prescribe the medicine to the patient.

The challenges and success of the treatment have been found on the following grounds :

Consumption of water: Where the patient has religiously followed the naturopathy principal of taking 12 glasses of water a day , they have immensely benefited in a shorter span of time. Those who could take the water by visualizing orange light have further benefited.

Visualisation of Orange Light: This is the blessing of God almighty for energising the renal organs. Medicine is energised with orange light mentally, if done on a daily basis by the patient it has better results.

Time Gap after taking medicine: The challenge of many patients not following the norm of taking the medicine empty stomach with discipline increases the recovery time and the efficiency of the entire process. So despite of the possibility of having better results, the opportunity is lost or reduced in many cases.

Status of patient at the time of starting the medicine: Some patients have multiple ailments, mostly with Neurological disorders, administering treatment to them with the same effectivity is lost considerably.

Emotional build-up of the patient: Patients who have positivity vis a vis with inherent negativity show a substantial difference in treatment response. Since this chakra gets blocked with negativity, and opens with positivity, the best of treatment does not help if the patient has a negative outlook and visa versa.

Regularity: Regularly taking the medicine and visiting the clinic also has direct correlaton with the recovery.

Other ailments: Alopatheic medicines being taken for other and same ailments is sometime found to hinder the recover/dilute the findings.

The results have been good and the improvement has been in almost all cases. Limitation has been

where the patients have not taken medicine or some of them have been taking allopathic medicines or for other reasons like other ailments or unknown reasons.

The kidneys on being felt through physical examination give a very good assessment if there is a problem. Many a time this pain is observed even without the patient having any other symptoms viz no problems in ultrasounds or no problem in Blood tests on the kidney parameters viz BUN, creatinine etc.

The common syptoms have been found are fluffiness in the face, water retention in the legs or on other part of the body, also in some cases high uric acid has been found to be correlated with kidney problems. Further more the pain from the back radiates down from the hip to the leg and goes sometimes to the foot. All these symptoms point towards the problems of the patient. If these sypmtoms come down it is to the better and if the symptoms aggravates it means something is not working out for the better, which becomes the ground to ask the patient if the patient is following necessary discipline as advised .

SIGNIFICANCE OF THE STUDY

The goal of treatment should not only be relief but also to prevent recurrences. Homeopathy combined with Psychoneurobics and Naturopathy can provide miraculous relief from nephro problems. Homeopathy can ensure cure / better relief from nervous disorders without any side-effects.

Other Homeopathic medicines commonly used in cases of Nephrological complaints are Thuja, Formica Rufa, B(E) Coli, Echinacea for Bacillus Coli.

While Aconite, Apis Mel, Helleborous, Arsenic Alb, Cannabis Sativa, Kali Chor, Calcaeria Sulph, Phosphorous, Cantharis, Terebinth,Plumbum, Digitalis,Lycopodium for Brights Disease.

Bereberis Vulgaris, Ocimum Can, Chin Sulph, Calceria Carb, Urtica Urens, Natrum Phos, Terebinthina are used for Kidney Stone.

Calcarea Iod, Sepia, Hydronephrosis are used for floating or moving kidney.

These Medicines should be taken under the advice and diagnosis of a qualified Homeopath.

CONCLUSION

Blood pressure dropped between 9 to 12% over several readings, while the pulse stabalised and dropped by 5%. The other readings which where not numerical were more prominent and

reassuring. The Emotional and Physical profile of the patient improved by around 46% while the sleep improved by around 25%. All these parameters are clearly indicating towards better health and that a combination of Homeopathy, Psychoneurobics and Naturopathy has helped in the overall better nephron health of the patient.
